

**COP-038**  
**ICES-PITA Education & Community Outreach**

**Cristina Amon**

Director, Institute for Complex Engineered Systems, Raymond J. Lane Professor of Mechanical and Biomedical Engineering, Carnegie Mellon University, Pittsburgh, PA

**Susan Finger**

Associate Professor, Civil and Environmental Engineering, Carnegie Mellon University, Pittsburgh, PA

**Annette Jacobson**

Principal Lecturer, Department of Chemical Engineering and Director of Colloids, Polymers, and Surfaces Program, Carnegie Mellon University, Pittsburgh, PA

**Phil Campbell**

Research Associate Professor, Institute for Complex Engineered Systems and Biomedical and Health Engineering, Carnegie Mellon University, Pittsburgh, PA

**Abstract**

This program shares the university's educational resources with the local community; integrating Carnegie Mellon students, faculty and staff with young students from the City of Pittsburgh and its surrounding areas. It provides an opportunity for local children to gain hands-on experience and knowledge about education and careers in math, science and engineering. Outreach indirectly supports the ICES and PITA goals by fostering young students at an early age, which in the long run enhances the education and economic future of our region.
